## A UNIVERSITY ENGAGED WITH THE WORLD

### THE HISTORY OF NORTHEASTERN UNIVERSITY

Founded in 1898, Northeastern is a global research university and the recognized leader in experiential learning. Despite the university's current preeminence, Northeastern had modest origins.

At the end of the 19th century, immigrants and first-generation Americans constituted more than half of Boston's population. Chief among the city's institutions committed to helping these people improve their lives was the Boston YMCA. The YMCA became a place where young men gathered to hear lectures on literature, history, music, and other subjects considered essential to intellectual growth.

In response to the enthusiastic demand for these lectures, the directors of the YMCA organized the "Evening Institute for Young Men" in May 1896. Frank Palmer Speare, a well-known teacher and high-school principal with considerable experience in public schools, was hired as the institute's director. Two years later, under Speare's direction, the YMCA advertised the creation of the "Department of Law of the Boston YMCA," and on October 3, 1898, Robert Gray Dodge taught the first class. The program, an immediate success, marked the birth of Northeastern University. Speare would later remark, "We started with an eraser and two sticks of chalk."

When demand for other courses grew, Speare moved to add more programs, and in 1909 the full-time day colleges began instruction. That same year, the Evening Polytechnic School announced "cooperative engineering courses," in which students would have an opportunity to apply classroom knowledge in the workplace—the beginning of Northeastern's signature cooperative education program.

#### **Decades of expansion**

The school continued to grow, and in 1922 the College of Business was founded. More space was needed. The university purchased the former home of the Boston Red Sox in 1929, and in 1934 the Boston architectural firm Shepley, Bulfinch, Richardson, and Abbott was awarded the contract to design Richards Hall. Using what was to become the campus signature—white brick—Shepley, Bulfinch presented plans for a neoclassical building. Opened in 1938, Richards Hall was the first building to appear on the front quadrangle.

As the campus grew, so did Northeastern's programs. In 1935, the College of Liberal Arts was added, signaling that Northeastern was on its way to becoming a major university.

When Speare stepped down as president in 1940, he was replaced by Carl Stephens Ell, dean of the College of Engineering. It was under Ell's leadership that Northeastern first admitted women to full-time day programs.

In the postwar world, Northeastern, like its peer institutions, saw a phenomenal increase in the number of people attending college. The university expanded its programs to accommodate this growing population of increasingly diverse students. In rapid succession, additional programs and colleges were established: College of Education, 1953; University College, 1960; College of Pharmacy, 1962; College of Nursing, 1964; Boston Bouvé College, 1964; College of Criminal Justice, 1967; and College of Computer Science, 1982.

This expansion of programs brought with it a need for more buildings—and land. When Ell retired as president in 1959, he was succeeded by Asa S. Knowles. Under his leadership, suburban properties in Weston, Nahant, and Burlington were acquired and the Boston campus blossomed with new buildings, including various undergraduate dormitories designed to accommodate the increasing number of residential students at what had been primarily a commuter campus.

### **Transforming the Boston campus**

When Knowles retired in 1975, he was succeeded by Kenneth G. Ryder, who had begun his career at Northeastern as a member of the history department and had risen through the ranks to become executive vice president before his election as president. Under his leadership, the university expanded and enriched its programs, particularly in the arts and humanities, and continued to improve its facilities. Plans for the Snell Library were finalized during Ryder's tenure, and the campus was beautified. During these years, Northeastern also deepened its commitment to Boston and its neighborhoods.

In 1989, Ryder stepped down as the fourth president of the university. He was succeeded by John A. Curry, Northeastern's executive vice president and its first alumnus to become president. With President Curry in charge, the university embarked on a series of ambitious undertakings, including a new science and engineering research center, a state-of-the-art classroom building, a recreation complex, and several new graduate and undergraduate programs.

To support these new ventures, Curry led Northeastern in a successful fundraising campaign. His years of leadership also featured significant restructuring as the university prepared to enter its second century. In June 1996, after four decades of service, Curry retired from Northeastern. To succeed him, the trustees elected Richard M. Freeland as the university's sixth president.

### **Elevating experience**

A distinguished historian and administrator, President Freeland brought to the university a renewed sense of energy and mission. His programs were designed to support his vision of Northeastern as a university that would be student-centered, practice-oriented, and urban. Northeastern developed the West Campus with architecturally acclaimed residence halls and teaching facilities for the health sciences and computer science, and added new spaces to enrich student life on campus.

When Freeland stepped down in 2006, he was succeeded by Joseph E. Aoun, an internationally known linguistics scholar. Northeastern's seventh president came from the University of Southern California, where he served as dean of the College of Letters, Arts, and Sciences. President Aoun developed an academic plan outlining the university's vision in several areas: experiential learning, global outreach, use-inspired research, urban engagement, and intellectual life. He greatly expanded global co-op opportunities. He also aligned the university's research with three worldwide imperatives—health, security, and sustainability—with a focus on interdisciplinary solutions.

### **A rising global profile**

Under Aoun's leadership, Northeastern launched a system of campuses designed to be platforms for lifelong learning aligned with area economies. The first two opened in Charlotte, North Carolina (2011), and Seattle (2013). Three more campuses followed in San Francisco and San Jose, California (2015), and in Toronto (2016).

In 2016, Aoun led the development of a new academic plan, *Northeastern 2025*. The plan was a blueprint for transforming the university into a global university system—featuring networks of learners and innovators—designed to empower people to succeed in this era of unprecedented technological change. Accordingly, the university expanded the role of its global campuses to serve as platforms for learning, research, and industry partnerships. In 2019, it opened another location in Vancouver and acquired New College of the Humanities in London, now officially Northeastern University London and offering undergraduates a unique opportunity to earn a dual U.S./U.K. degree. Later in 2019, Northeastern launched a research campus in Arlington, Virginia, an addition to two existing research campuses in Nahant and Burlington, Massachusetts (formed in 1967 and 2012 respectively).

Then in January 2020, technology entrepreneur David Roux and his wife, Barbara, made an investment in the university to open the Roux Institute in Portland, Maine. The institute focuses on graduate studies and research in fields such as AI, digital engineering, and

advanced life sciences, amplified by industry partnerships. It was specifically designed to be a model of how higher education can ignite economic development in regions of the country largely bypassed by the innovation economy, setting a new bar for what the global university system could achieve.

### **Resilience and momentum**

The same revolutionary vision for global learning and discovery that inspired *Northeastern 2025* infuses the university's latest academic plan, *Experience Unleashed*. The plan is designed to deepen the impact of Northeastern's global network by maximizing the power of experience to understand and solve the world's interconnected, ever-evolving challenges.

In 2022, the university took a significant step in realizing the potential for its global system by merging with Mills College in Oakland, California, becoming the first university with comprehensive residential campuses for undergraduate and graduate students on both U.S. coasts. Northeastern's Oakland campus is now home to Mills College at Northeastern and the Mills Institute, focused on equity, social justice, and women's leadership. Later in 2022, Northeastern announced its newest campus in Miami, with graduate education and innovation partnerships aligned with South Florida's economic growth.

Thanks to the dedication and hard work of our university community, Frank Palmer Spence's "eraser and two sticks of chalk" have evolved into one of the world's most innovative universities and a platform for significant impact. Our faculty collaborates more fluidly with experts across industry, government, and community-based organizations. Ideas and solutions can be scaled. And our students are empowered to be true global citizens, scientists, entrepreneurs, and creators—prepared to make an impact wherever they go.

## CPS EXCELLENCE AWARD WINNERS

Each calendar year, Northeastern University's College of Professional Studies recognizes the outstanding work and contributions of faculty and staff through its Faculty and Staff Excellence Award program. The awards are given to those who have gone above and beyond and demonstrated exceptional commitment to the College's mission and values. The awards are a way to recognize and celebrate the hard work and dedication of individuals who have helped make the College what it is today.

The **Excellence in Teaching Award** is open to all full-time and part-time faculty. This award recognizes those faculty who bring out the best in students by teaching courses with intellectually challenging and stimulating content, who seamlessly integrate the subject matter with experiential learning, and who encourage students to actively engage in the classroom discourse. Nominations for the Faculty Excellence Awards are made by currently enrolled students.

The **Staff Excellence Award** is open to all regular administrative staff and non-teaching faculty, while the **Student Service Excellence Award** recognizes primarily student-serving administrative staff and non-teaching faculty. Both awards recognize those employees who have embodied the mission of the College, surpassed their job duties, and exceeded expectations by positively impacting our learners' lives and contributing to their success. Nominations for the Staff Excellence Awards are made by CPS faculty, staff, and students.

Congratulations to our 2023 Service Excellence Award winners:

**Ammar Aamer**

*Excellence in Teaching – Full-time Graduate*

**Mimi Wan**

*Excellence in Teaching – Part-time Graduate*

**Balazs Szelenyi**

*Excellence in Teaching – Full-time Undergraduate*

**Sam Sacco**

*Excellence in Teaching – Part-time Undergraduate*

**Wendy Crocker**

*Excellence in Teaching Honorable Mention – Full-time Graduate School of Education*

**Anne Szewczyk**

*Staff Excellence Award*

**Leslie Harwood**

*Student Service Excellence Award*

## STUDENT SPEAKER

### KATHY YU

Kathy Ting-Ting Yu, '23, is a corporate social responsibility professional with more than a decade of experience in media and entertainment.

After earning her bachelor's degree in 2010, Yu launched a career in media and advertising, working at Saatchi & Saatchi and Wavemaker. She then shifted to in-house advertising sales at Hulu, and later to product marketing at TikTok.

In 2020, Yu decided to follow her passion for philanthropy, volunteerism, and belonging. She changed careers, taking a role as a graduate intern with the American Red Cross' development team, supporting corporate strategic partnerships. To fast-track her transition, she also enrolled in a graduate program at Northeastern, pursuing a Master of Science in organizational leadership with a concentration in nonprofit management and social impact.

While studying toward her master's, Yu pursued opportunities to gain deeper experience in her field. In 2021, she took a contract position at Coupa Software to manage their employee giving and volunteer programs. Later that year, she took a position in diversity recruiting and people operations at health tech startup Tia, where she co-founded the Asian-Pacific Islander employee resource group.

Her experience and desire to make a positive impact landed Yu a position at Pixar Animation Studios, a company renowned for its diverse storytelling. There she works on the inclusion and outreach team, where she focuses on culture, content, and community.

A California native who grew up in Los Angeles County, Yu moved to the Bay Area 10 years ago and is actively involved in her community. She serves on the board of the Alumni Association of California State University, Fullerton—where she earned her bachelor's degree—and is a member of its scholarship committee and former chair of the finance committee. She also volunteers with the American Red Cross, APIA Scholars, and the League of Women Voters San Francisco.

In addition to her Master of Science from Northeastern, Yu holds a bachelor's in political science and communications from California State University, Fullerton, and a certificate in brand management from eCornell University.

## GRADUATION ADDRESS

### **ANTONIO G. GOMES**

Antonio G. Gomes is a deeply experienced and dynamic leader in the software industry and a staunch advocate for greater diversity and inclusion in the technology and legal fields.

Gomes currently serves as the chief legal and administrative officer for Cloud Software Group, where he's responsible for the company's legal, security, human resources, and corporate marketing functions. He leads a global, multidisciplinary team working in partnership with all segments of the enterprise to advance the company's objectives and manage risk.

Cloud Software Group was formed in September 2022 by the joining of Citrix and TIBCO, two leading global enterprise-focused software businesses. The merger was the largest private equity backed acquisition of a software company in history, creating a portfolio of companies under the management of Cloud Software Group that serve over 400,000 customers with more than 100 million users in over 100 countries.

Gomes was previously executive vice president and chief legal officer at Citrix Systems, a data security technology company, where he led the global legal team. In that role, he had responsibility for corporate governance, compliance, employee relations, intellectual property, litigation, and legal support for Citrix's commercial transactions, strategic acquisitions, investments, and licensing.

His deep experience in technology led him to see the crucial role diversity and inclusion can play in creating not only a positive corporate culture, but also in fueling innovation. In 2022, Gomes and his wife established the Antonio G. Gomes and Maria Cristina De Souza Associate-to-Master's Scholars Fund in the College of Professional Studies. Through this funding, Northeastern will welcome a cohort of low-income students in fall 2023, providing an accelerated pathway from community college to an advanced college degree—and on to a career in science, technology, engineering, or mathematics. By supporting students from communities and populations underrepresented in the technology space, Gomes and his wife broaden access to higher education and STEM careers for talented young people.

Prior to joining Citrix, Gomes was a partner in the corporate practice of Goodwin Procter LLP and an associate at Testa, Hurwitz & Thibault, LLP, in Boston.

A native of Rio de Janeiro, Gomes currently resides in Miami. He holds a Bachelor of Science in business administration and finance from the College of Professional Studies and a juris doctor from Boston University School of Law.

## ALUMNI GREETING

### CARMEN ALIBER

A seasoned human resources leader, Carmen Aliber has devoted her career to creating and sustaining high-performing workplaces. She credits her education for not only earning her a seat at leadership tables, but also for helping her develop her ability to advocate for people, ideas, and legislation.

As a member of the leadership team at Dexter Southfield, an independent school in Brookline, Massachusetts, Aliber oversees human resources and strategic initiatives. Among her notable achievements was taking part in the planning to ensure the school remained fully staffed and operational during the COVID-19 pandemic.

Before joining Dexter Southfield, she was a director of human resources for Cummings Properties. She began her career as the human resources coordinator at Massachusetts General Hospital. Aliber also served six years in elected office as chair and member of the school committee in Wakefield, Massachusetts.

Her memberships include the Harvard Pilgrim Health Care's Employer Advisory Board, New England Independent School HR Forum, and the New England Human Resources Association.

Aliber is also a dedicated volunteer at Northeastern. She gives back to her alma mater as an alumni ambassador, guest speaker, mentor to adult learners, and a benefactor through her membership in Northeastern's Frank Palmer Speare Society. In addition to her generous service to the university, she volunteers as an advocate for education, the homeless, and domestic abuse survivors.

She has earned two degrees from the College of Professional Studies: a bachelor's in organizational communication and a master's in leadership studies with a concentration in human resources management. Aliber is the mother of two daughters, one of whom also is a Northeastern alumna.

## UNIVERSITY SENIOR LEADERSHIP

Joseph E. Aoun, *President*

David Madigan, *Provost and Senior Vice President for Academic Affairs*

Michael Armini, *Senior Vice President for External Affairs*

## HONORS AT NORTHEASTERN UNIVERSITY

Bachelor's degree candidates who have completed a minimum of 60 semester hours of work at the College of Professional Studies and who have demonstrated distinctly superior academic achievement as evidenced by the following cumulative grade point averages will graduate with honors:

- Summa cum laude 3.850 to 4.000
- Magna cum laude 3.700 to 3.849
- Cum laude 3.500 to 3.699

Gold cord worn around the neck denotes honor student.

White and gold cord worn around the neck denotes MacFarland Scholar. The MacFarland Scholarship, established in 1990 through a bequest from Helen MacFarland, M.Ed. '56, supports students pursuing initial licensure to become classroom teachers in urban settings.

The registrar of the university maintains the official list and records of all graduates. This program is for ceremonial purposes only and includes only information available at publication deadline.

## PROGRAM NOTES

### HISTORICAL NOTES ON ACADEMIC DRESS

Academic dress appears to have originated at the universities of Oxford and Cambridge more than 600 years ago, and, to this day, the most colorful gowns in the world are those worn at Oxford functions. European institutions show great diversity in their academic costume, since each adopted or initiated its own dress.

In contrast, American colleges and universities follow a single system of academic apparel. In 1894, a group of leading American educators met to draft guidelines on apparel. Known as the Intercollegiate Code, these guidelines were adopted the following year and amended slightly in 1932.

The distinctions set up by the Intercollegiate Code are simple. Gowns for the bachelor's degree are to be fashioned from "worsted stuff" with a yoke, pleated front, and intricate shirring across the shoulders and back. Worn closed, the bachelor's gown is distinguished primarily by its long, pointed sleeves. The master's gown has the same yoke effect and long, crescent-shaped sleeves; it may be worn open or closed.

The doctor's gown, which may also be worn open or closed, has velvet panels draped around the neck. Three horizontal velvet bars are stitched on full bell-shaped sleeves. This velvet trimming may be black or in the color that indicates the field of study to which the degree refers.

Northeastern University's distinctive doctoral gown is crimson with black velvet panels and sleeve bars. The crimson cap, or mortarboard, bears a gold metallic tassel. In accordance with academic custom, recipients of the doctor's degree, members of the university's governing boards, and government officials in the procession are entitled to wear the official regalia. The bachelor's and master's hoods have a similar shape, while the doctor's hood has a rounded base. The length of the hood indicates the level of academic achievement, with the doctor's hood being longest; the width of the border distinguishes the degree, with the doctor's being widest. The color of the border indicates the field of study; the lining color indicates the institution conferring the degree.

At Northeastern, where only the master's and doctor's hoods are worn, a black chevron on a crimson background is used for the lining.

When colors were first assigned to signify a particular field of study, historical associations were retained as much as possible. For example, white, for arts, refers back to the white fur edging of the Oxford hood; red, for theology, to the traditional color of the church; and green, for medicine, to the color of herbs.

The tassel on the mortarboard may be black or in a color that indicates the graduate's major field of study.

# ALMA MATER

Oh, Al - ma Ma - ter, here we throng, And  
sing your prais - es strong; Your child - ren ga - ther far and near And  
seek your bless - ings dear; Fair mem - o - ries we cher - ish now And  
will for - ev - er - more. Come, let us raise our voi - ces strong, North -  
east - ern we a - dore.

The musical score is written in a single system with five staves. The key signature has three flats (B-flat, E-flat, A-flat) and the time signature is common time (C). The melody is simple and hymn-like, with lyrics printed below each staff. The final note of the piece is a half note with a fermata.

*Oh, Alma Mater, here we throng,  
And sing your praises strong;  
Your children gather far and near  
And seek your blessings dear;  
Fair memories we cherish now  
And will forevermore.  
Come, let us raise our voices strong,  
Northeastern, we adore.*
