

COLLEGE OF PROFESSIONAL STUDIES

*Graduation Ceremony*

8 MAY 2024

# CONTENTS

This program is for ceremonial purposes only and is not to be considered an official confirmation of degree information. It contains only those details available at the publication deadline. **Please note that not all graduates' names are listed, as some students opt out of having their names appear in Northeastern publications.**

We ask those in attendance to kindly silence their electronic devices and to remain in their seats until the platform party has left the stage and the graduate recessional has finished.

# A UNIVERSITY ENGAGED WITH THE WORLD

## THE HISTORY OF NORTHEASTERN

Founded in 1898, Northeastern is a global research university and the recognized leader in experiential learning. Despite the university's current preeminence, Northeastern had modest origins.

At the end of the 19th century, immigrants and first-generation Americans constituted more than half of Boston's population. Chief among the city's institutions committed to helping these people improve their lives was the Boston YMCA. The YMCA became a place where young men gathered to hear lectures on literature, history, music, and other subjects considered essential to intellectual growth.

In response to the enthusiastic demand for these lectures, the directors of the YMCA organized the "Evening Institute for Young Men" in May 1896. Frank Palmer Speare, a well-known teacher and high-school principal with considerable experience in public schools, was hired as the institute's director. Two years later, under Speare's direction, the YMCA advertised the creation of the "Department of Law of the Boston YMCA," and on October 3, 1898, Robert Gray Dodge taught the first class. The program, an immediate success, marked the birth of Northeastern University. Speare would later remark, "We started with an eraser and two sticks of chalk."

When demand for other courses grew, Speare moved to add more programs, and in 1909 the full-time day colleges began instruction. That same year, the Evening Polytechnic School announced "cooperative engineering courses," in which students would have an opportunity to apply classroom knowledge in the workplace—the beginning of Northeastern's signature cooperative education program.

### **Decades of expansion**

The school continued to grow, and in 1922 the College of Business was founded. More space was needed. The university purchased the former home of the Boston Red Sox in 1929, and in 1934 the Boston architectural firm Shepley, Bulfinch, Richardson, and Abbott was awarded the contract to design Richards Hall. Using what was to become the campus signature—white brick—Shepley, Bulfinch presented plans for a neoclassical building. Opened in 1938, Richards Hall was the first building to appear on the front quadrangle.

As the campus grew, so did Northeastern's programs. In 1935, the College of Liberal Arts was added, signaling that Northeastern was on its way to becoming a major university.

When Speare stepped down as president in 1940, he was replaced by Carl Stephens Ell, dean of the College of Engineering. It was under Ell's leadership that Northeastern first admitted women to full-time day programs.

In the postwar world, Northeastern, like its peer institutions, saw a phenomenal increase in the number of people attending college. The university expanded its programs to accommodate this growing population of increasingly diverse students. In rapid succession, additional programs and colleges were established: College of Education, 1953; University

College, 1960; College of Pharmacy, 1962; College of Nursing, 1964; Boston Bouvé College, 1964; College of Criminal Justice, 1967; and College of Computer Science, 1982.

This expansion of programs brought with it a need for more buildings—and land. When Ell retired as president in 1959, he was succeeded by Asa S. Knowles. Under his leadership, suburban properties in Weston, Nahant, and Burlington were acquired and the Boston campus blossomed with new buildings, including various undergraduate dormitories designed to accommodate the increasing number of residential students at what had been primarily a commuter campus.

### **Transforming the Boston campus**

When Knowles retired in 1975, he was succeeded by Kenneth G. Ryder, who had begun his career at Northeastern as a member of the history department and had risen through the ranks to become executive vice president before his election as president. Under his leadership, the university expanded and enriched its programs, particularly in the arts and humanities, and continued to improve its facilities. Plans for the Snell Library were finalized during Ryder's tenure, and the campus was beautified. During these years, Northeastern also deepened its commitment to Boston and its neighborhoods.

In 1989, Ryder stepped down as the fourth president of the university. He was succeeded by John A. Curry, Northeastern's executive vice president and its first alumnus to become president. With President Curry in charge, the university embarked on a series of ambitious undertakings, including a new science and engineering research center, a state-of-the-art classroom building, a recreation complex, and several new graduate and undergraduate programs.

To support these new ventures, Curry led Northeastern in a successful fundraising campaign. His years of leadership also featured significant restructuring as the university prepared to enter its second century. In June 1996, after four decades of service, Curry retired from Northeastern. To succeed him, the trustees elected Richard M. Freeland as the university's sixth president.

### **Elevating experience**

A distinguished historian and administrator, President Freeland brought to the university a renewed sense of energy and mission. His programs were designed to support his vision of Northeastern as a university that would be student-centered, practice-oriented, and urban. Northeastern developed the West Campus with architecturally acclaimed residence halls and teaching facilities for the health sciences and computer science, and added new spaces to enrich student life on campus.

When Freeland stepped down in 2006, he was succeeded by Joseph E. Aoun, an internationally known linguistics scholar. Northeastern's seventh president came from the University of Southern California, where he served as dean of the College of Letters, Arts, and Sciences. President Aoun developed an academic plan outlining the university's vision in several areas: experiential learning, global outreach, use-inspired research, urban engagement, and intellectual life. He greatly expanded global co-op opportunities. He also aligned the university's research with three worldwide imperatives—health, security, and sustainability—with a focus on interdisciplinary solutions.

## **A rising global profile**

Under Aoun's leadership, Northeastern launched a system of campuses designed to be platforms for lifelong learning aligned with area economies. The first two opened in Charlotte, North Carolina (2011), and Seattle (2013). Additional campuses followed in Silicon Valley, California (2015), and in Toronto (2016).

In 2016, Aoun led the development of a new academic plan, Northeastern 2025. The plan was a blueprint for transforming the university into a global university system—featuring networks of learners and innovators—designed to empower people to succeed in this era of unprecedented technological change. Accordingly, the university expanded the role of its global campuses to serve as platforms for learning, research, and industry partnerships. In 2019, it opened another location in Vancouver and acquired New College of the Humanities in London, now officially Northeastern University London and offering undergraduates a unique opportunity to earn a dual U.S./U.K. degree. Later in 2019, Northeastern launched a research campus in Arlington, Virginia, an addition to two existing research campuses in Nahant and Burlington, Massachusetts (formed in 1967 and 2012 respectively).

Then in January 2020, technology entrepreneur David Roux and his wife, Barbara, made an investment in the university to open the Roux Institute in Portland, Maine. The institute focuses on graduate studies and research in fields such as AI, digital engineering, and advanced life sciences, amplified by industry partnerships. It was specifically designed to be a model of how higher education can ignite economic development in regions of the country largely bypassed by the innovation economy, setting a new bar for what the global university system could achieve.

## **Resilience and momentum**

The same revolutionary vision for global learning and discovery that inspired Northeastern 2025 infuses the university's latest academic plan, Experience Unleashed. The plan is designed to deepen the impact of Northeastern's global network by maximizing the power of experience to understand and solve the world's interconnected, ever-evolving challenges.

In 2022, the university took a significant step in realizing the potential for its global system by merging with Mills College in Oakland, California, becoming the first university with comprehensive residential campuses for undergraduate and graduate students on both U.S. coasts. Northeastern's Oakland campus is now home to Mills College at Northeastern and the Mills Institute, focused on equity, social justice, and women's leadership. Later in 2022, Northeastern announced its newest campus in Miami, with graduate education and innovation partnerships aligned with South Florida's economic growth.

On October 3, 2023, Northeastern marked its 125th anniversary. The milestone offered an opportunity both to recognize how the entire Northeastern community has been shaped by the power of experience and to herald the next 125 years of world-changing impact. Thanks to the dedication and hard work of our university community, Frank Palmer Spear's "eraser and two sticks of chalk" have evolved into one of the world's most innovative universities. Our faculty collaborates more fluidly with experts across industry, government, and community-based organizations. Ideas and solutions can be scaled. And our students are empowered to be true global citizens, scientists, entrepreneurs, and creators—prepared to make an impact wherever they go.

# PROGRAM

MATTHEWS ARENA, BOSTON  
TEN O'CLOCK A.M. and THREE O'CLOCK P.M.

Prelude

The National Anthem

Olivia Neville

*The audience is requested to join in singing the first stanza*

Invocation

Alexander Levering Kern

*Executive Director, Center for Spirituality, Dialogue, and Service*

Welcome to the Graduates

Jared Auclair

*Interim Dean, College of Professional Studies*

Student Speaker

Nerea Leia Marti Ayuso (*TEN A.M. Ceremony*)

Puya Moghadam (*THREE P.M. Ceremony*)

Graduation Address

Edmund DiSanto

Conferring of Degrees

*(TEN A.M. Ceremony)*

David Madigan

*Provost and Senior Vice President for Academic Affairs*

Jared Auclair

*Interim Dean, College of Professional Studies*

*(THREE P.M. Ceremony)*

Jared Auclair

*Interim Dean, College of Professional Studies*

Joe Griffin

*Senior Associate Dean of Academic Affairs*

Degrees in Course

## Welcome to the Alumni Association

Nash Hernandez '07 and Michael Gladstone'85

## Charge to the Graduates

Jared Auclair

*Interim Dean, College of Professional Studies*

## Alma Mater

Olivia Neville

## Recessional

Musical and dance performances produced by Shams Ahmed '13

## Music provided by

*The Nor'easters, and dancers from troupes across the university.*

*We ask those in attendance to kindly silence their electronic devices and to remain in their seats until the platform party has left the stage and the graduate recessional has finished.*

# CPS EXCELLENCE AWARD WINNERS

Each calendar year, Northeastern University's College of Professional Studies recognizes the outstanding work and contributions of faculty and staff through its Faculty and Staff Excellence Award program. The awards are given to those who have gone above and beyond and demonstrated exceptional commitment to the College's mission and values. The awards are a way to recognize and celebrate the hard work and dedication of individuals who have helped make the College what it is today.

The **Excellence in Teaching Award** is open to all full-time and part-time faculty. This award recognizes those faculty who bring out the best in students by teaching courses with intellectually challenging and stimulating content, who seamlessly integrate the subject matter with experiential learning, and who encourage students to actively engage in the classroom discourse. Nominations for the Faculty Excellence Awards are made by currently enrolled students.

The **Staff Excellence Award** is open to all regular administrative staff and non-teaching faculty, while the **Student Service Excellence Award** recognizes primarily student-serving administrative staff and non-teaching faculty. Both awards recognize those employees who have embodied the mission of the College, surpassed their job duties, and exceeded expectations by positively impacting our learners' lives and contributing to their success. Nominations for the Staff Excellence Awards are made by CPS faculty, staff, and students.

Congratulations to our 2023 Service Excellence Award winners:

Andrew Kinley

*Excellence in Teaching – Full-time Faculty*

Anthony Alsayed

*Excellence in Teaching – Part-time Faculty*

Alessandro Zampi

*Staff Excellence Award*

Jocelyn Faber

*Student Service Excellence Award*

## STUDENT SPEAKER

### **Nerea Leia Marti Ayuso**

Nerea Marti Ayuso is an international communications professional with over 10 years of experience in the field of media and political communications.

After earning her journalism degree in 2013, Marti Ayuso started collaborating with different media outlets in Barcelona, Spain, along with international TV and documentary production companies. It wasn't long before she earned the Schuman internship to work at the communications department of the European Parliament where her interest in diplomatic relationships and communications began to take shape.

Inspired by the merging of these two worlds, Marti Ayuso relocated to her nation's capital of Madrid to take a communications role for a political party in the Spanish Parliament, she would later advance to communications director. It was during this time her calling for public service deepened, inspired by what she witnessed first-hand about how politics and civil society can make real changes and progress when working together.

In 2022, Marti Ayuso took her calling a step further and decided to pursue her dream of studying in the U.S. and enrolled in CPS to pursue a master's degree in global studies and international relations, with a concentration in diplomacy – completing her studies with a 4.0 grade point average.

A native of Spain, Marti Ayuso now lives in New York City where her passion for international affairs and tireless effort have contributed to her achieving a personal career goal of working for the United Nations. As a Senior First Assistant to the High Representative for the United Nations Alliance of Civilizations, she works within a UN entity that seeks to build bridges among cultures and promote interfaith and interreligious dialogue as a tool for peacekeeping and conflict prevention.

In addition to her master's degree from Northeastern, Marti Ayuso has also earned a bachelor's degree in journalism from the Autonomous University of Barcelona.

## STUDENT SPEAKER

### **Puya Moghadam**

Puya Moghadam is an accomplished IT professional who has spent years honing his skills and expertise in the ever-evolving landscape of the tech industry. Currently working at CarGurus, Moghadam's life journey has so far been a testament to perseverance and the powerful impact of mentors.

Growing up in an environment where access to fair education and opportunities for advancement were limited, Moghadam faced adversity from an early age. It was during that formative period he began to develop the tools to overcome self-doubt and uncertainty, ultimately pursuing his goal of effecting positive change in the world.

In 2019, he experienced a transformative moment upon the passing of grandmother and recommitted to making a change in his life. It was then Moghadam encountered Year Up, a program offering accelerated workforce training. Despite harboring doubts about his own ability to succeed at such a program, he took a leap of faith and applied.

Relocating from Vienna, Austria to Boston during the pandemic to pursue new opportunities, Moghadam secured a coveted internship as an enterprise support technician at Facebook in 2021, confirming his capabilities and initiative to excel beyond his past. Yet, his deep desire for personal and intellectual growth persisted, leading him to enroll in the bachelor completion program at CPS in 2021.

Transitioning from full-time employment in the corporate world to academics left Moghadam initially hesitant, but he overcame any initial doubts thanks to the support and guidance from his mentors and professors at CPS. It was with their encouragement that he chose to pursue his childhood dream of becoming a lawyer by taking on a legal apprenticeship at Year Up in 2022.

After graduating from CPS with a bachelor's in information technology, Moghadam hopes to pursue a law degree where he plans to combine his passion for technology with a desire to advocate for justice and fairness.

A citizen of the world he currently calls Boston his home, where he enjoys working on his project car and looking for the next big travel destination.

## GRADUATION ADDRESS

### **Edmund DiSanto**

For nearly 50 years, Edmund DiSanto has been an advocate for international trade and commerce. His distinguished career spans senior legal and business roles at national and global companies.

From 2007 until his retirement last year, DiSanto served as executive vice president, chief administrative officer, general counsel, and secretary of American Tower Corporation. Throughout his career, he oversaw transformative change in legal and regulatory affairs, human resources, corporate governance, international business development, and innovation investment support. During his tenure, the company experienced tremendous growth and it currently operates a digital communications infrastructure business in 26 developed and emerging market nations as an S&P 500 company.

Prior to joining ATC, DiSanto worked with Pratt & Whitney, a unit of United Technologies Corporation (now Raytheon Technologies), where he served as assistant general counsel; deputy general counsel; and vice president of global service partners, business development. He has also held various legal and related positions at United Dominion Industries and New England Electric Systems (now National Grid).

DiSanto has served as a member of the board of directors on the U.S.-India Business Council and the Business Council for International Understanding, and as the ATC strategic officer to the World Economic Forum. He is currently a member of the board of directors of the New England Law Foundation, an advisor to the Business Council for International Understanding and as an advisor to the board of the New England Air Museum. He also serves as a member of the bar in Massachusetts, New Hampshire, and the U.S. Supreme Court.

In 2022, DiSanto received the New England Legal Foundation John G.L. Cabot Award recognizing an individual whose work reflects a steadfast commitment to the advancement of free enterprise principles in the community.

Currently, DiSanto is a founding investor and director of Sobono Private Limited, a Singapore-based corporation that through its subsidiaries designs, develops, constructs, and manages renewable and recoverable energy systems and products.

He earned his Juris Doctor from Boston College Law School in 1978, and a Bachelor of Science in English from Northeastern University in 1975.
